

# Augustine Raheem Obaidiku

Junior SOC Analyst / Cybersecurity Analyst

## Profile

I'm a Junior Cybersecurity Analyst with a background in Computer Engineering. During my studies in the university as computer engineer, I learnt the basis of cybersecurity and I was inspired to learn more and grow in the career path as cybersecurity analyst and that has been the driving force that has lead me to my newly acquired cybersecurity skills at Ironhack 12-weeks intensive bootcamp training. I'm looking forward to put my training and skill to use in a real life scenario as a SOC Analyst or Cybersecurity Analyst combining the knowledge, skills and training acquired in the university as a Computer Engineer to making the internet world a safe place as our world is fast evolving into a digitalized world.

## Education

### Cybersecurity Analyst

[Ironhack Remote Bootcamp, Amsterdam](#)

Oct 2022 - Feb 2023

Intensive 12-weeks coursework with theoretically approach, hands-on projects and labs

- Cybersecurity fundamentals
- Network Administration
- Network and application security
- Incident Handling
- Forensic
- Malware Analysis
- Ethical Hacking
- Risk Management
- Threat Intelligence

### MSc. Computer Engineering

[Ternopil Ivan Puluj National Technical University, Ternopil](#)

Graduate

Sep 2019 - Dec 2021

### BSc Computer Engineering

[Ternopil Ivan Puluj National Technical University, Ternopil](#)

Graduate

Nov 2014 - Jun 2018

## Experience

### Cybersecurity Bootcamp

[Ironhack, Netherlands](#)

Nov 2022 - Feb 2023

- The Importance of Cybersecurity in the Military
- Challenges in Military Cybersecurity
- Solutions to Challenges in Military Cybersecurity
- Implementing countermeasures to prevent or mitigate attacks
- Hand-on Exercise, Labs and Analysis
- InSights, Wireshark, Splunk, SIEM, and Firewalls

### Machine Operator

[Royal Swindles Family Brewers, Bavaria, Netherlands](#)

Jul 2022 - Oct 2022

- Checked item quality throughout production stages to prevent errors.
- Reported identified operational deficiencies to supervisor and maintenance personnel.
- Set-up machines for various jobs for high-quality manufacturing and waste reduction.

### Sales Representative

[Kiy Avia, Ukraine](#)

Nov 2020 - Jan 2022

- Sales Analysis on weekly basis
- Ticket sales officer
- Addressed customer questions, problems and complaints in person

### Internship Student

[Ternopil Ivan Puluj National University, Ukraine](#)

Jul 2017 - Sep 2017

- Windows
- VirtualBox
- HTML
- Web Development and Web Design
- Unified Modeling Language (UML)
- Network Design
- Computer Maintenance
- MySQL
- Linux
- Microsoft Office
- Computer Hardware

### Junior Security Analyst Training

## Cybersecurity Hard Skills

- SIEM and EDR
- Splunk
- NMAP and Metasploit
- Linux
- Wireshark and Snort
- Threat Intelligence
- Wazuh
- IDS / IPS
- Autopsy
- Process Explorer and Process Monitor
- MySQL

## Computer Engineering Hard Skills

- Java and C++
- HTML
- Basic knowledge of Python, Javascript
- Web Development and Design
- Programming
- Microsoft Office
- Networking and Design
- Windows

## Soft Skills

- Intelligent time management
- Great communication skills
- Analytical and problems-solving
- Decision making and Fast thinker
- Working under pressure
- Smart and Fast Learner
