MERT **TOPRAK**

WEB DEVELOPER

👤 About Me

As a seasoned professional with a background in **product management** and recently equipped with **full-stack development** skills, I offer a unique blend of strategic insight and technical expertise. With three years of experience managing complex projects and a recent completion of a full-stack development bootcamp, I drive innovation and deliver tangible results. Passionate about leveraging technology to solve real-world challenges, I am eager to contribute to dynamic teams in the tech industry. Additionally, I hold a valid **working visa** for the Netherlands.

⚙ Skills

`HTML` `CSS` `JavaScript` `React` `SQL`

`Postman` `MongoDB` `Express.js` `Node.js`

🍴 Projects

Portfolio
Jan. 2024

🔗 https://mert-toprak.netlify.app/

- Leveraged **React** to create a dynamic and responsive user interface, facilitating seamless navigation and interaction across different devices.
- Utilized **Bootstrap** for streamlined design and layout, ensuring a visually cohesive and appealing user experience.
- Implemented various **CSS** tricks and techniques to enhance visual appeal and interactivity, including animations, transitions, and hover effects.

Project L.U.I.S.
Dec. 2023

🔗 project-luis.netlify.app

- Executed frontend development using **HTML**, **CSS**, **JS**, and **React**.
- Established a robust and intricate database system using **MongoDB**, **Express.js**, **Node.js**, and **Postman**.
- Crafted both the backend and frontend from the ground up.
- Implemented a secure user authentication system.
- Empowered users to review their bootcamps and modules, while granting admin capabilities for **CRUD** operations throughout the website.

Rate My Stuff
Nov. 2023

🔗 rate-my-stuff.netlify.app

- Developed using **HTML, CSS, JS,** and **React**.
- Implemented basic server functionalities with **Node.js** and a **JSON API**.
- Enabled users to perform **CRUD** operations on posts, comments, and star-ratings.

Console.frog()
Nov. 2023

🔗 eminmerttoprak.github.io/mert-toprak-first-game/index.html

- Developed a game inspired by the classic Frogger from 1982, utilizing **vanilla JS, DOM**, and fundamental **CSS** skills acquired in the **initial two weeks** of the course.
