PROFILE

A software developer with previous experience in full-stack development. Recently graduated from Le Wagon intensive Web Dev Bootcamp and completed a group project building a website mobile that aims to connect people for ride-sharing and promote environmental friendliness. I'm looking forward to bringing my skills and enthusiasm to a new development role.

EDUCATION

Web Development 04/2024 - 06/2024
Le Wagon Netherlands

- 9-weeks full-time intensive coding bootcamp.
- Learning and using HTML, CSS, Bootstrap, JavaScript ES6, SQL, Git, GitHub, Heroku and Ruby on Rails.
- Designed, implemented and shipped to production a clone of Airbnb.
- Completed a project of ride-sharing in 2 weeks in a team of 4.

Bachelor's degree, Information Systems 01/2011 - 12/2017
Fundação Educacional Encosta Inferior do Nordeste Brazil

- The program emphasizes the development of technical skills in areas such as software development, database management, networking, and cybersecurity, alongside a strong foundation in business processes and project management.

Electronic technician, with an emphasis on Microcontrollers 01/2008 - 12/2010

Escola Técnica Estadual Monteiro Lobato (CIMOL) Brazil

- The curriculum covers key areas such as circuit analysis, digital and analog electronics, embedded systems, and programming of microcontrollers.

EXPERIENCE

Professional development 04/2018 - Present
Career Break Sassenheim

I moved to the Netherlands with my boyfriend for his job. I didn't speak English initially but took courses to improve. Despite challenges, I continued taking tech courses and improving my English. Now, I'm ready for new challenges!

Full-stack Developer 09/2016 - 03/2018
Grupo Insoft4 Sapianga, Rio Grande do Sul, Brazil · On-site

Insoft4 Group provides 360-degree service in hardware and software for access and security, time and attendance systems, and third-party management.

- I developed new features for a third-party documentation project where employees could submit their documentation for verification by an external consultancy company before proceeding with their tasks.
- I migrated two Oracle Forms applications to modern stack using Java, Grails, REST, ExtJS, and JavaScript. One was for access control and the other for managing working hours and calculating vacation days and compensations.

Full-stack Developer 02/2011 - 09/2016
CR Sistemas e Web Taquara, Rio Grande do Sul, Brazil · On-site

Implemented 3 new websites and maintained 2 software projects, initiating my expertise in Java and web development.

- E-commerce with PagSeguro payment system integration. A project created from the scratch using Java, Hibernate, MySQL, JSP, and Rest APIs.
- I significantly improved system performance by migrating the chemical industry software from Delphi to Java.
