2023

Project made as a *Le Wagon* student.

**Close it!**, *An app that promotes the connection between investors and startups!* 📄

2023

Final project as student at *Le Wagon*.

### Profile

Hello, I'm Maria, a highly motivated junior front-end developer with a passion for web development and design.

I completed a coding boot-camp recently and gained experience in both front-end and back-end web development. Before my coding journey, I started my professional career as a nurse, where I learned the value of attention to detail and effective communication. My experience in healthcare has taught me to approach problem-solving with empathy and critical thinking.

In addition, I also served in the military for two years, where I learned the importance of discipline, teamwork, and problem-solving.

Overall, I am a dedicated developer always eager to learn and develop my knowledge and skills, and I believe my diverse set of experiences can be valuable to my future team.

### Courses

**Web Developer Bootcamp**, *Le Wagon*

01.2023 – 03.2023 | Amsterdam, Netherlands
